

YOGEV HARUVI ONE MAN TRIBAL BAND

Yogev Haruvi is a **ONE MAN BAND** highly skilled on didgeridoo and a wide range of percussion moves, all at the same time that is. He creates a full orchestra of sounds, making uplifting dance music with the skill and accuracy that would only be expected from computer-generated beats.

With the help of two of the most ancient instruments, **DRUM & DIDGERIDOO**, he creates an environment where music travels between genres of world beat, techno and live trance, forming a powerful sound and hypnotic visual component.

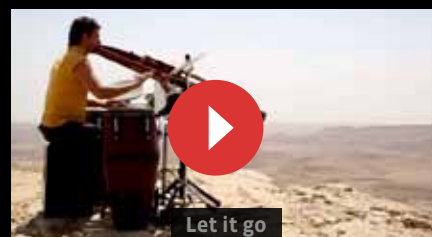

An emerging festival favorite, both in his home base of Israel and abroad, his live act is a mind blowing experience, leaving the sweaty fans begging for more. It has led him to be the headliner for **“Le rêve de l'Aborigène” (France)**, invited to perform three times at the **“Ozora Festival” (Hungary)** and extensively tour Europe and Asia in festivals such as **“Ancient trance festival” (Germany)**, **IndiEarth XChange 2014 (India)**, and the main stage of **“Yaarot Mensh festival 2015” (Israel)** and many other exciting venues.

“pumped out crowd is revealed in front of us, rampant as if possessed with what's coming from the stage. The crowd would not let him stop. Without a doubt, Yogev Haruvi was THE king of the forest that night”

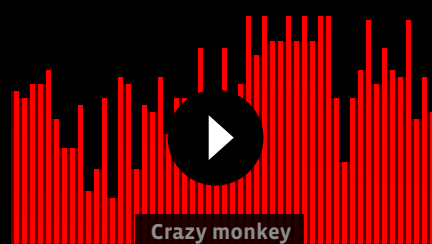

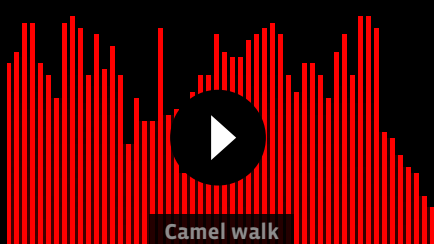

Hadas Vanunu | Artistic Director - Yaarot Menashe Festival

“This is the ultimate one-man band, guaranteed to pack out any dance floor.” Paul James Cook | elementary didge festival
